

EDUCATION

Mindstorms EV3 - My Robot

(9-14 yrs)

Ever wondered what it would be like to operate your own personal robot? Here's your chance! using the LEGO Mindstorms EV3 software you will learn how to build a fully functional robot from scratch. You and others will be challenged to successfully work together to program your robots to complete simple missions. By the end of this course you will understand simple engineering processes, how to use the EV3 program, and have a basic understanding of how sensors and motors work.
